Dear Mr. Gibson,

As Founder and CEO of Team Veteran, a Veterans advocacy organization, I wish to thank you for originating HR 543, The Blue Water Navy Vietnam Veterans Act of 2013. Team Veteran is about supporting veterans by giving them a chance to live productive lives even though they are fighting through many challenges trying to re-assimilate into American culture. HR 543 is an important instrument in restoring the presumption of herbicide exposure, "Agent Orange" during the Vietnam war. Our organization fully supports the passage of this bill and look forward to it becoming law.

Respectfully yours,

Gordon Brown
